

ORNAMENTAL
puzzle

about the project

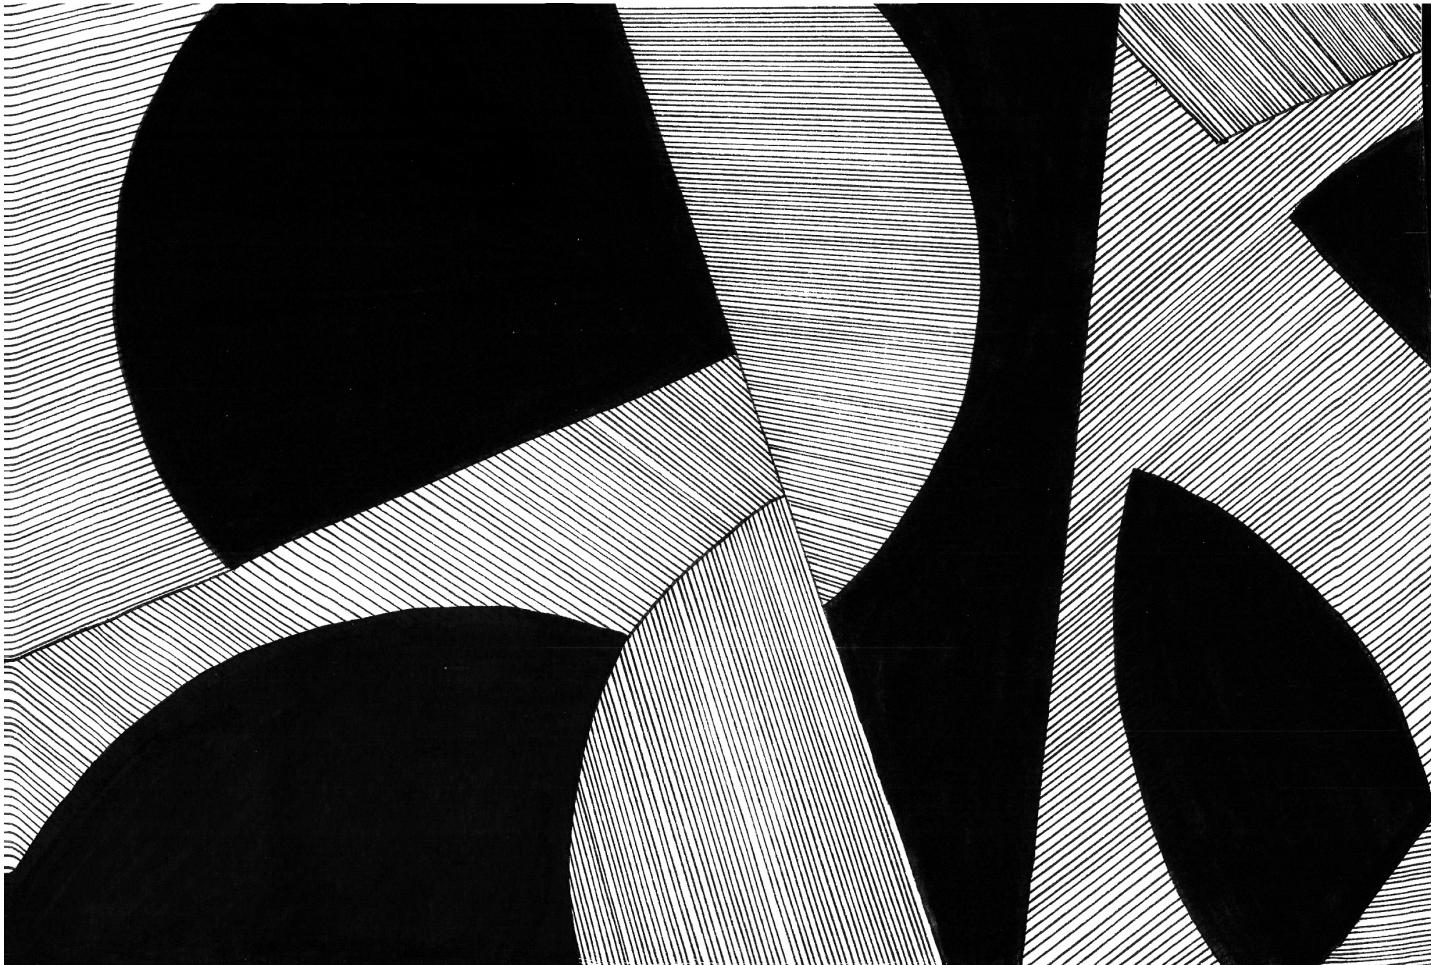

"Ornamental puzzle" is an academic drawing project. It is a pretty unique puzzle that is made out of 8 exact, rectangular pieces.

It is a puzzle where you look for matching shapes but inside the image, the ornaments, and not in each piece's outline.

rules

You can move pieces around and rotate them.
Every piece is needed to complete the artwork.
Colors are irrelevant – you need to match paths and
circular shapes among the pieces.
